Homey

1. To connect Homey provider, after **creating a Project Space** - navigate to the **Providers** view -> **Connections** page from the **Left Side Panel**. Click Add connections button and select **Homey** from available providers (*you'll be redirected to the provider web page.*)

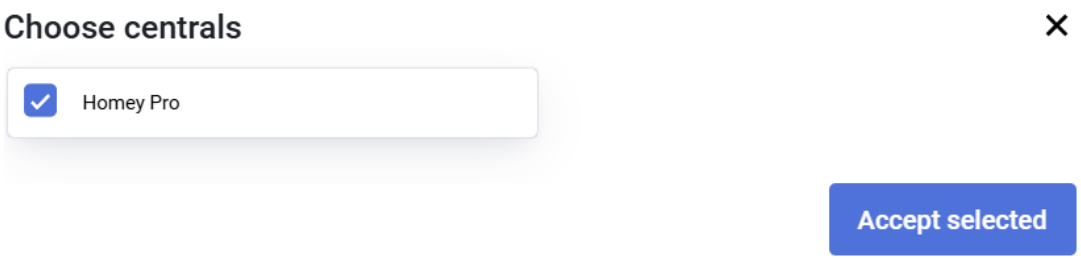

2. Login with your Homey account:

3. Allow the following permissions for both apps:

4. Select your central unit for pairing:

Now you can add and manage your Homey devices within the Sim-on
