

# Homey

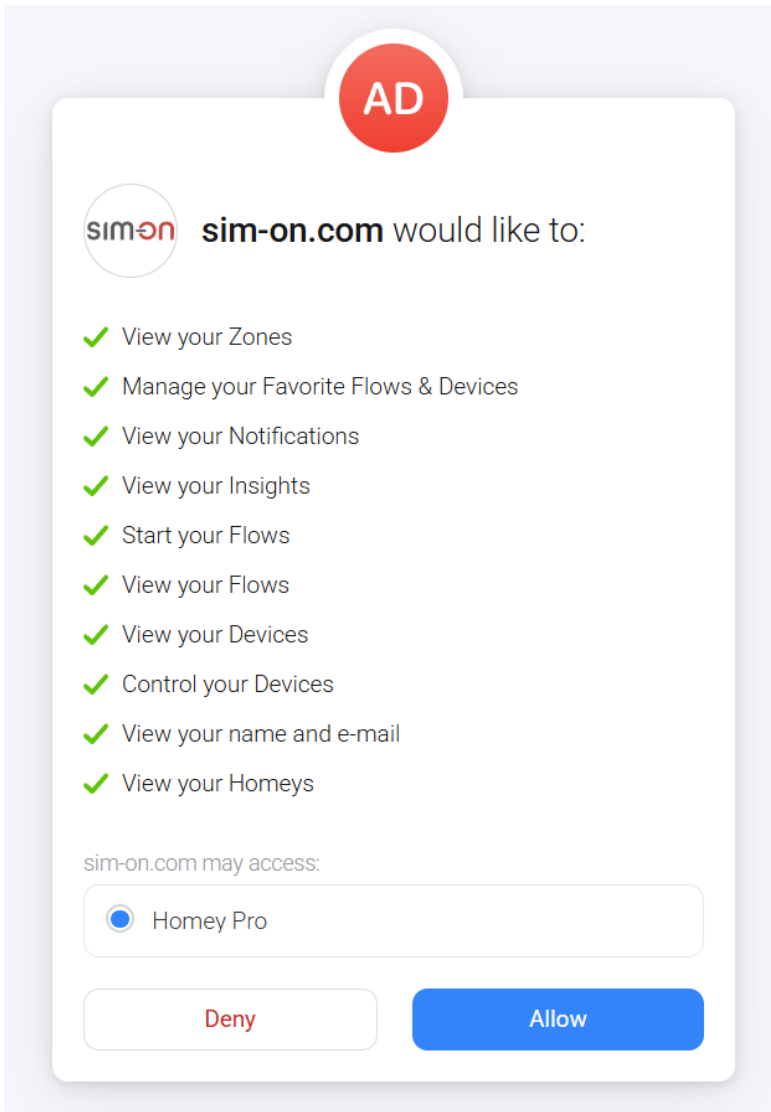

1. To connect Homey provider, after [creating a Project Space](#) - navigate to the [Providers](#) view - > [Connections](#) page from the [Left Side Panel](#). Click [Add connections](#) button and select **Homey** from available providers (*you'll be redirected to the provider web page.*)

2. Login with your Homey account:

The image shows a 'Sign in' form for Homey. At the top is a circular logo with a rainbow gradient. Below the logo is the text 'Sign in'. There are two input fields: 'E-mail address' and 'Password'. Below these fields is a blue button labeled 'Sign in'. Underneath the button is a horizontal line with the word 'or' in the center. Below the line is a button labeled 'Sign in with Google' with the Google logo to its left. At the bottom of the form is a link labeled 'Sign up'.

3. Allow the following permissions for both apps:

4. Select your central unit for pairing:

### Choose centrals

Homey Pro

Accept selected

Now you can add and manage your Homey devices within the Sim-on
