

IBM Maximo

1. To connect an IBM Maximo provider, after [creating a Project Space](#) - navigate to the [Providers](#) view -> [Connections](#) page from the [Left Side Panel](#). Click "Add connections" button and select **IBM Maximo** from available providers. You'll be then redirected to the following page:

IBM Maximo

Login
Login to your IBM Maximo account and connect it with Simon space

SERVER URL ADDRESS *

USER NAME *

PASSWORD *

Login

Connect via: **simon**

2. Login with your IBM Maximo account

3. Select the Organization and Site, then finalize with "connect"

Set the connection

Choose Maximo target site for this Simon space

Organization *

SIMLAB

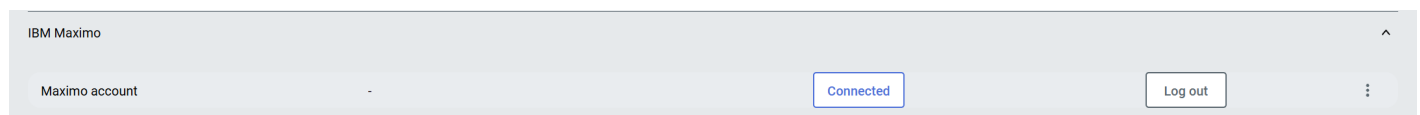

Site *

MALDRON

Connecting with Maximo lets you seamlessly link assets to the Sim-On environment. Browse these assets in the IBM Maximo specific [Dashboard](#) page: [Resources](#).

Additionally, with IBM Maximo comes a special feature for **Assets** in Sim-on: **linking** with IBM Maximo devices.

See [IBM Maximo Asset Link](#) feature and [Resources](#) pages to learn more
