Subscription Plans

Central panel for License management, displaying all of the necessary information and plan details together with the history of payments, all in one, easily accessible space.

The screenshot displays a user interface for managing subscription plans. It is organized into several sections:

- Current plan:** Shows the active plan as "ENTERPRISE PLAN" with a list of features: "Devices per space - see plan details", "Cloud space - see plan details", "Scenes per space - see plan details", and "Ad-free".
- Invoice address:** A section for managing the billing address, featuring an "edit" icon.
- Settlements and payments:** Displays the next payment information: "Next payment: Price: 0.00 (Net) Date:" and includes an "Add card" button.
- Plan details:** A table listing three plans: "Old office", "Legal Office", and "New apartment". Each plan entry shows its specific limits for "Spaces", "Users", and "Cloud space(MB)".
- Promo codes:** A section with an input field for "Enter promo code" and an "Apply" button.
- Invoice history:** A table with columns for "Invoice Number", "Date", "Plan Name", and "Cost".
- Thinking about changing your plan?:** A promotional message encouraging users to explore upgrade options, with a "Check out plans" button.

- **Current plan**

In this section you'll see your current plan and it's features.

- **Invoice address**

The specified information for payments will be displayed here. Select the **edit**  icon to open a text window where you will be able to edit the information.

- **Settlements and payments**

The upcoming transactions will be displayed here.

- **Plan details**

Section displaying your current plans limits and their usage by space.

- **Promo codes**

If you have a promo code, here's where you can apply it.

- **Invoice history**

The history of your account payments together with Invoice numbers, dates, plan names and costs.

- **Check plans**

[You can check all the plans here](#) or by clicking on the image below.

The screenshot displays the 'SIM-ON Subscription Plans' interface. At the top, there are filters for 'Individual' (selected), 'Company', and 'United States of America'. Below the filters, three plan cards are shown:

- FREE PLAN** (Private use only): Price \$0.00. Features: 1 space, 4 users, Max. 10 devices per space. Button: 'Current plan'.
- HOME PLAN** (Private use only): Price \$10.00 / 30 days* Net. Features: 1 space, 4 users, Max. 50 devices per space, Ad-free. Button: 'Private use only'.
- FAMILY PLAN** (Private use only): Price \$25.00 / 30 days* Net. Features: 3 spaces, 6 users, Max. 50 devices per space, Ad-free. Button: 'Private use only'.

The price of the product may vary depending on the user's location and the time of purchase. Please check the final price before completing your purchase

- **Electricity price conversion**

Toggleable option for automatic power price conversion

SIMLAB Cloud

Your main profile view where you can change your password/name and access the SIMLAB apps from.

SIMLAB Cloud is a comprehensive digital platform designed to support the entire lifecycle of building management through its Digital Twin solutions. It integrates advanced technologies such as Internet of Things (IoT), and 3D visualization to create a digital replica of physical assets, like houses, hospitals, factories. This digital ecosystem allows users to manage every aspect of a property from design and construction to maintenance or renovation.

The screenshot shows a dark-themed user interface. At the top, the heading "My profile" is displayed in white. Below it, there are two buttons: "Change display name" and "Change password". The "Change password" button is preceded by the word "PASSWORD" in small, uppercase letters. Below the profile section, the heading "Services" is shown. Under "Services", there is a sub-heading "Take full advantage of your account" followed by the text "Your SIMLAB account allows you to access both applications". To the right of this text are two service cards. The first card is for "Stages", featuring a logo of three stacked cubes and the text "Construction management platform". Below this is a description: "Monitor project with timeline, view work stages, collect data, share notes. All with one tool." and a red button labeled "Go to STAGES". The second card is for "SIM-ON", featuring a logo with the text "sim-on" in white and red. Below this is the text "Construction management platform" and a description: "Explore a new solution for smart system control and building maintenance, utilizing an interactive 3D interface." and a red button labeled "Go to SIM-ON".

You can select one of two solutions:

- **SIM-ON:** A versatile platform that leverages the Matterport scans to create a dynamic 3D visual interface. It integrates seamlessly with IoT and building automation systems like Fibaro, NETX, Samsung SmartThings and KNX, allowing for effective asset management and facility maintenance.
- **STAGES:** Another solution under SIMLAB Cloud, STAGES focuses on monitoring the construction process and facilitates communication among teams and stakeholders. It offers tools for comparing different phases of a project using Matterport scans, 3d models, which helps in managing changes and maintaining a historical record of the building's state using the timeline.
