

Activity log

In the Activity log tab you will find the latest activity in the project and its type, time and the user it was triggered by.

- **Search** - You can look for activities in the project by providing the event type.
- **Filter** - You can filter out activity by the type of the activity, timeframe or the user.
- **Display** - The list of activities is displayed here, sorted by the time, from earliest to oldest. It is further filtered by the filter and search options. Each activity has a type, time, user and short description.

The screenshot shows the 'Activity log' tab in a software interface. At the top, there is a navigation bar with icons for Settings, Home, a grid, users, and a calendar. Below this is a search bar and three filter dropdowns for 'Time', 'Type', and 'User', along with a 'Clear filters' button. The main area contains a table with the following data:

Type	Time	Triggered by
Role Event	04:02PM 31/07/2024	[redacted] ⋮
Role Event	04:02PM 31/07/2024	[redacted] ⋮
Role Event	04:01PM 31/07/2024	[redacted] ⋮
Role Event	04:01PM 31/07/2024	[redacted] ⋮
Role Event	04:01PM 31/07/2024	[redacted] ⋮
Role Event	04:01PM 31/07/2024	[redacted] ⋮
Device Command Event	01:26PM 12/07/2022	[redacted] ⋮

Revision #5
