Manage Maximo links, and asset connections

Inspecting a Maximo item shows currently linked assets, together with a quick access to their location. Additionally, we can go directly to the linked item in the Maximo site.

Adding Maximo Link

From this panel you can also "pre-add" Maximo items for easier linking/management in the future. Press the " + Add " button

lick the button on th	e right to add the link to the asset	+ Add

With the revealed panel, we must choose the Maximo system we want to list items from and select the desired one. The name of an item can be changed for the Simon side, but it's not necessary, as it will inherit the name by default.
